

THE

South-Carolina Gazette.

Containing the freshest Advices Foreign and Domestick.

FROM SATURDAY OCTOBER 31, TO SATURDAY NOVEMBER 7, 1741.

BRUNSWICK, July 30.

LONDON, August 1.

THIS Court being united by the Ties of Blood to that of Vienna, and having received the most pressing Instances to act for its Interests in the present Conjunction, the Serene Duke has ordered six Regiments of his Troops to be ready to march upon the first Notice; and 'tis likely this Body will join the Hanoverians and Hessians.

Petersburgh, July 11. Advices were receiv'd here this Week from Stockholm, that a Resolution had been taken by the Dyet, to transport to Finland a Body of 4000 Horse. General General Keith will, it's said, go To-morrow to Wybourg, to review the Troops that are encamp'd on that Side, amounting to about eighteen thousand Foot, and four thousand Dragoons, and to take upon him the Command of that Body, which, in Case of Necessity, may be soon reinforced by Detachments from another Camp on the Narva side, about the same Number, under the Command of the Prince of Hesse Hombourg. These Troops are so canton'd and encamp'd, that a Body of fifty or sixty thousand Men may in a few Days be drawn together.

Frankfurt, August 7. Our Advices from Alsace confirm that the French Troops are in full March towards the Empire.

Brussels, August 7. Our Letters from the Frontiers of French Flanders inform us, that most of the Troops are marching to the Camp actually forming near Givet; that the heavy Artillery, as well as a great Number of Field Pieces, are on the Road to the Camp; and that all the Magazines in Hainault are extremely well provided.

Paris, August 9. Never were the Publick Affairs of Europe in a more fluctuating State, than at present: Ever since the Death of the late Emperor, Politics, in almost every Court, have been as variable as the Weather; and, if any Credit is to be given to our freshest Advices, that of *Sardinia*, hitherto so faithful to the CARDINAL Points, is on the very Instant to be govern'd by Winds directly opposite. In plain English, 'tis given out, that his *Sardinian* Majesty is to be married to the second Archduchess, who is to have the *Millanese* for her Dowry; by which Means that Prince will obtain an easy Possession of what the House of *Savoy* has so long in vain contended for; after which he will neither have Pretence or Excuse for opposing the Queen of *Hungary*; on the contrary, it will be his natural Interest to support her with all his Forces, against all Opposition whatever: If this, therefore, should be true, the Death of the late Queen of *Sardinia* may be justly esteem'd one of the most important Events, which has lately happen'd on this Side of the Globe.

Count de Maurepas, whose Province is the Marine, has made such Regulations therein that the King is able to send out 60 Ships of the Line in Case of Need.

August 11. M. de Court, Lieutenant-General of the Marine, is setting out for Toulon, in order to take upon him the Command of the Squadron fitted out there.

Capt. Page's Owners of the *Francis*, the *Oporto Man*, that took a Spanish Prize off *Vigo*, are so well satisfied with his Conduct, that they are about fitting him up a stout Privateer that is to mount 36 Guns, and carry 200 Men.

August 4. By a Person just arriv'd from France we hear, the Declaration of War against England is in the Press, and that the Privateers at *Dunkirk* wait only for sailing Orders — *Poor England!*

An outward bound Ship from *Lizbon*, suppos'd to be the *Don Francisco*, Capt. Salter, was lately taken by a Spanish Privateer, and carried into *Dunkirk*.

August 6. At a Time when our Merchants lose their Ships not only in the *British Channel*, but even in the Streight of *Dover* itself, it may be some Consolation to them to have it known, that we have no less than ONE HUNDRED AND SEVENTY-FIVE Men of War, of all sorts, now in Commission.

On Tuesday Night the Lords of the Regency sat till 12 o'Clock; General Wade, and several other Officers, attended their Excellencies.

Orders are gone to the War-Office for Brigadier General Guise and Blakeney's Regiments of Foot to be sent to the West Indies.

His Majesty's Ship the *Namure*, of 90 Guns, is ordered to be got ready to be commissioned, with all convenient Speed.

Yesterday was a Board of Admiralty, when their Lordships were pleas'd to appoint Capt. Draper to be Commander of the *Wolf Sloop*. This Gentleman commanded the *Sloop* of the same Name, which was lost in the West-Indies in bad Weather.

The Lords of the Admiralty have appointed Capt. Laws late of the *Spence Sloop*, to be Captain of the *Greenwich*, a fourth Rate of sixty Guns, in the Room of Capt. Flemming, who resign'd.

August 8. We hear that a Battalion of Brigadier St. Clair's Regiment of Foot in Ireland had Orders to go to America.

And that the Right Hon. the Lord Tyrrawly, Major-General of his Majesty's Forces, is to embark with them, being, as 'tis said, appointed Commander in Chief of the Forces in the West-Indies.

Several Pieces of very curious large Brass Ordnance have been shipp'd this Week for the Island of *Jamaica*; together with a large Quantity of Military Stores.

We hear that several Men of War will be put in Commission, at the next Board of Admiralty.

His Majesty's Ship the *Royal Oak*, rebuilt at *Plymouth* will be launch'd next Spring Tides, and is judg'd to be the finest 70 Gun Ship ever built in England.

We hear that a Draught will be made out of the several Regiments in Great-Britain, which are to form a Body of Troops to be sent to the West-Indies.

August 10. All Accounts agree that the *Declarations, Memorials, Manifestos, &c.* of the French, are ready to be publish'd at a Moments' Warning. — *That is, they will strike their Stroke first, and give a Reason for it afterwards.* — Some other Advices say, that they are sitting out their Privateers at *Dunkirk, St. Malo's, &c.* and that Hostilities are to be commenced against the English under the Title of *Reprisals.* — But why under such a Title is surprising, unless some Story is to be trump'd up to vindicate the *French*'s Pacifick Declarations, and lay the Fault of the War on Great Britain.

August 18. We hear that the Royal Yachts are order'd to be got ready forthwith.

They write from the Hague, that the Dutch are changing several of their Garrisons, and that all the Officers and Soldiers belonging to the Garrisons of the Barrier Towns are order'd to repair thither forthwith.

A Captain of a Ship from Portugal says, that for several Days together he was spoke to, two or three times a Day by British Men of War; by which it appears that the Design of Sir John Norris at present is to intercept the Spanish Fleet. Should they endeavour to bring the Treasure from the Havanna.

Boston, October 19. Last Thursday a large French Ship board from the Havannah to Cadix, with a very rich Spanish Cargo, was brought in here. She was taken by the Success Man of War, order'd on this Station, and by her carried into Madeira, from whence she was sent hither by the Captain, who is daily expected. 'Tis said, her Cargo, in Money, Sugars, Cocoa, and other valuable Commodities, when taken, was worth 100,000 l. Sterling.

CHARLES-TOWN, November 7.

Since our last we have an Account, that Capt. Henning's Schooner which was drove on shore on Cape Roman Shoals is stove to Pieces, but her Lading sav'd.

Last Thursday arrived Capt. Cowle from Boston, who informs us, that he was chas'd off Bull's-Island by a Sloop under Spanish Colours, suppos'd to be a Privateer, upon which he fired a Shot at her, and she immediately bore away. — 'Tis to be fear'd she is the Sloop that has been hovering on our Coast for above these Ten Days past.

Extract of a private Letter from Savannah in Georgia, 10th October, 1741.

WHEREAS their Excellencies the Lords Justices of Great-Britain have lately notified to his Honour the Lieutenant Governor of this Province, that the Parliament of Great-Britain have granted to his Majesty, the Sum of TWENTY THOUSAND POUNDS Sterling, for the Re settling and Re establishing the unfortunate SUFFERERS by the late FIRE of Charles Town. And for the more equal and just Distribution of the said Sum among the said SUFFERERS, proportionable to their respective Losses, their Excellency's have directed that the Losses of each SUFFERER should be examined and adjusted by a Committee of the Upper and Lower Houses of Assembly of this Province, in the following Manner, viz.

1st. That each SUFFERER deliver upon Oath to the Committee, a Schedule of his or her particular Loss.

2dly. That the said Committee do examine the same, and certify under their Hands and Seals, what they shall judge to be the real Loss of each SUFFERER.

3dly. That the said Committee do also apportion to each SUFFERER the respective Sum to be received by him or her, in order to their re-settling in this Province, according to the Proportion the Money granted by Parliament bears to the whole Loss.

4thly. TO

NUMB. 402.

To the Electors for the Parish of St. Philip,
Charles-Town.

Gentlemen,

AS the Election of a Member for this Town to fill up a Vacancy in the Honourable House of Assembly is at Hand, it is certainly of the greatest Consequence to make a right Choice, especially at present when the Deliberations and Resolutions of that Honourable Body are of the highest Concern to this Colony; and the single Opinion of one worthy Gentleman may have an Influence over others to our Advantage.

This Province like the Mother Country derives its chief Strength and Riches from Trade, wherefore whatever Methods (in our Power) can thereto prove beneficial ought to be follow'd.

A great many Members in this House, as may be seen by several excellent Laws, have had just, true and theoretical Ideas of Commerce; but those who are immediately and actually engag'd, and continue to engage in Trade, may certainly be supposed to give many proper Hints, as they ought to be better Judges of the Concerns of it, and of the Consequences which flow from particular Laws made relating thereto, than those who are unskill'd in the Practice, and have their Learning therein only from Books and casual Conversation.

The City of London is so sensible of the Necessity of such a Maxim, that, altho' in that august Assembly, the Senate of Great-Britain, there are many of great universal Wisdom, yet, they constantly chuse Four Gentlemen who shine in many Respects: But to be qualified for that important Station, they must be actual Traders, and who continue to trade whilst they are Mem-

bers. The Nation in general has found the Benefit of that prudent Method; as those Members have of late Years made bold, honest Stands in Defence of Liberty and Trade, and have opposed many pernicious Schemes, which if carried into Execution would have sap'd the very Foundation of their Power and Glory; their Arguments being frequently the Effects of real Practice, influenc'd many for whom it was no Scandal to be ignorant, 'till inform'd by these truly useful Patriots.

As we attempt to resemble *Great-Britain* in our political Government, so all laudable Practices of any Part of that Kingdom proper to be follow'd in this Colony, ought certainly to be Examples to us.

Let us therefore embrace this Occasion, to chuse a Man to supply the present Vacancy, who is now and has been long practising the Affairs of Commerce; and besides such Skill, (it must be acknowledg'd) he ought to be of solid Sense, truly honest and vers'd in Man.

There is one Gentleman, who with some Difficulty his Friends have at last prevail'd with to declare himself a Candidate at the ensuing Election: He is certainly allow'd to have these Qualities as much at Command as any one in the Province; and as he has hitherto practis'd them in private Life, he will doubtless exert himself should he succeed in this Attempt.

Such a Man is fit for the present Purpose, and such a Man, 'tis to be hop'd, will be approv'd of, and duly elected.

I am,

Gentlemen,

Your most humble Servant.
